What does the Kingdom of God look like?  
Wednesdays in Lent. 11:30 | 7:00

### Thy Kingdom Come

"Thy kingdom come." We pray this every week, but what does it really mean? What does God's kingdom look like? What are we invoking? Lent is right around the corner. The culmination of Lent is this strange turn of events where Jesus is riding triumphantly into Jerusalem on Palm Sunday as a glorious king, then executed as a despised criminal only days later. This dramatic juxtaposition cracks open our definitions of kingdoms, kings, and power forcing us to reevaluate. What is a kingdom? What is power? How is God's kingdom different than those we create?

This Lent we will explore the idea of God's kingdom in worship. The Sunday gospel texts all reveal glimpse of God's kingdom coming here on earth. From

the Samaritan woman at the well, to a blind man healed, to the raising of Lazarus we begin to see in their stories the answer to our own deep question: What does the kingdom of God look like and how do we live it now?

**We are excited to worship together on Wednesdays in Lent (11:30 a.m. and 7 p.m.).** During these mid-week services we will pray together, we will hear original music from the Psalms, and dwell in Matthew 25. Jesus says, "whatever you did for the least of these, you did it for me." As we pray "thy kingdom come," we will pray for God's kingdom for the hungry, the thirsty, the stranger, the sick, and the prisoner. What are the ways that Good Shepherd is already serving the least of these? What are ways we can pray? How can we, as God's people in this time and place order our lives around this prayer: "thy kingdom come, thy will be done, on earth as it is in heaven."

Lord Jesus, give us eyes to see your kingdom breaking through all around us, and the courage to live into this new reality that we might love as you love.

Grace and Peace,  
Pastor Josh

**Jim Anderson**  
**Council President**

Thank you to all who attended Good Shepherd Lutheran Church's annual congregational meeting on Sunday, February 5th. We discussed our budget and expenditures for 2016, voted on the 2017 budget, and presented and voted on a proposed capital fundraising campaign.

I am pleased to report that 2016 Income exceeded our budgeted amount by \$31,600. Our 2016 Stewardship campaign resulted in a higher than average pledge fulfillment rate; however, fewer people pledged in 2016 than in 2015. Our 2016 expenses were under budget by \$66,000, driven mostly by lower than expected salary and benefit costs. I should also note that last year, church leadership promised to increase benevolence to the Synod if GSLC's financial picture improved, which it did. In December, we supported the Synod with an additional \$12,000 over and above our budgeted amount.

The 2017 church budget was approved. Our budget is \$1,192,033, and our income is forecast to be \$1,142,146, which means we currently project a deficit of \$49,887. We are committed to exercising prudent stewardship in order to keep expenses in check as much as possible. We ask that you prayerfully consider your own giving and stewardship during 2017.

Your Church is planning a major capital campaign to raise the funds needed to make a number of improvements to our facilities and grounds. The Congregation approved a plan to repair and improve the kitchen, Sanctuary, bathrooms, heating and cooling system, roof, and computer systems. Also, included in the list of potential improvements will be an ADA-compliant restroom on the lower level, and new handicap-accessible entrance on the main level. We are looking at adding up to 110 new parking spaces, many of which will be closer to entrance on the north side of the building. This could include a covered

walkway at our North entrance.

A feasibility study has commenced and we should know more by mid-March about an amount that can be raised in this congregation. Likely, there will have to be some changes made to the project list, including a prioritization of projects. The kitchen renovation will be first on that list. We will be recruiting a Campaign Cabinet and numerous volunteer taskforces to move the campaign along. As we have more information, we plan to share it sooner, rather than later (meaning you may see occasional information coming weekly, rather than waiting for a monthly newsletter). 2017 will be an exciting time here at Good Shepherd. May God richly bless our members, our mission and our ministry.

### Lutherans Caring for God's Creation - from Pr. Amy

According to "Bright Horizons," the first step in helping kids be better stewards of the earth is to help them to develop a deep love and appreciation of it. This is what they have to say:

*"Children are more likely to want to take care of the natural world if they have a connection to it. To raise earth friendly kids, some families take nature walks, hike in the mountains, walk in the woods, or explore rivers, bays, or oceans. Other families walk around their neighborhoods to enjoy the natural life, pick up litter in community areas, work in a garden, plant seeds in pots, look at foliage and flowers, or use digital cameras to photograph insects."*

Now that the weather is getting warmer, take your family (or yourself) out for a day of raising your awareness of, and appreciation for, God's good creation!

### Service Team - Janie Wolfangel

The Service Team helps to organize many service-related activities within the church and one of those opportunities is the Reverse Offering during the Lenten season. This will begin the week-end of March 4-5 and the agency we will be supporting is Trinity Souldard, March 11-12 will be for Circle of Concern, March 18-19, Project Backpack, March 25-26, Fisher House, and ending April 1-2 supporting Nurses for Newborns.

**The Food Bin (Meal-a-Month) for March** will support Gateway 180, an organization that provides long term solutions to families with urgent housing needs. The food items requested are: Canned Fruit (really need), cans of Tuna or Chicken, cans of Chili, Boxes of Prepared Dinners (Macaroni & Cheese, Pasta Dinners).

Please stop by the Service Team Corner in the Narthex - a bulletin board has been added displaying more information on the agencies we support.

**Monthly Benevolence Fund:** Each month the Service Team has a theme which helps guide the selection of recipients for that month's Benevolence Fund disbursements. The theme for February was "Random Acts of Kindness." The Team researched several agencies and we were able to help the International Institute, USO Missouri, ELCA Funds for Leaders and ELCA World Hunger.

There were 3 agencies we tabled last month pending additional information, we received the information needed and we were able to help World Servants (supporting a student in a Subia Children's Home), ELCA Missions (Papua New Guinea and Russia), and International Partners in Mission.

**Who are the agencies we support: ELCA Fund for Leaders**

The ELCA Fund for Leaders serves as the ongoing promise of this church, that those called to lead the ELCA have the opportunity to pursue a path that leads to informed faith and passionate discipleship. They are helping future leaders start their ministerial careers with healthier financial realities that allow for creativity, generosity, and spirit led discernment.

Our own Pastor Amy was able to attend seminary on a fund for Leaders scholarship!

The Service Team normally meets on the first Tuesday of the month at 7:00 p.m. in Room 205! Please check the calendar and join us!

# CANCER

## Now What?

# MINISTRY

---

We thank God for the growing number of Good Shepherd members who are giving the book *Cancer-Now What?* to family members, friends, coworkers, and others who are facing cancer. So far, over 20 congregation members

have taken and given more than two dozen copies of the book *Cancer-Now What?* to people experiencing the strain of cancer.

If you know of someone facing cancer, visit the **Information Desk** in the narthex and follow the simple instructions posted there so you can give a book to that person.

For more info go to <http://goodshepherdlutheran.com/cancer-now-what/>

Questions?

Contact Good Shepherd's *Cancer-Now What?* Coordinator, Viki Longfield [viki1041@aol.com](mailto:viki1041@aol.com), 314-706-2602). An R.N., M.S. in Nursing, and Advanced Practice Nurse Oncology, Viki is extremely qualified to tell you about our Cancer-Now What? Ministry and to follow up with anyone who

is dealing with cancer.

**A "Wink" from the Welcome Ministry Team**  
**by: Elliott Haugen**

*"Therefore welcome one another as Christ has welcomed you, for the glory of God." Romans 15:7 ESV*

Good Shepherd continues to welcome many wonderful individuals, couples and families who are drawn to our Lutheran theology, worship services, educational programs, service projects, and Spirit-filled sense of community. Feedback from visitors and new members almost always includes expressions of how they feel welcomed, included and valued by you - the congregation.

The Welcome Team now needs some additional help from you! A 2-part orientation/informational session has been scheduled for those interested in learning more about our church and its membership opportunities. We will publicize these dates in the weekly bulletins, but since visitors do not get this newsletter we also need you to share the following with anyone interested in Good Shepherd:

- Part 1: March 19 (noon, room 205, with lunch and childcare)
- Part 2: March 26 (9:30 am, Fireside room)

Those joining will be welcomed at the 9:30 am service on April 2.

*Note: A "wink" is a brief form of communications that implies a hello or friendly greeting. Watch for future Winks with thoughts and information about GSLC's church-wide welcoming ministry.*

[krebholz@gslcelca.org](mailto:krebholz@gslcelca.org)

Building Blocks Preschool is an exciting school. Our preschoolers enjoy child-created puppet shows, discovering objects in classroom

sensory tables and playing with their classmates on the playground. Valentine's Day gave children an opportunity to send valentines through the classroom mailboxes in the dramatic play areas. They have special friendships and are thrilled when they reunite with one another each day.

In addition, Building Blocks has held some special events. February was Dental Health month and our classrooms enjoyed when Dr. Steve Hough, from Hough Orthodontists, taught our

children about the importance of healthy teeth and what happens during a dentist visit. Dr. Hough has been teaching our preschoolers for years and years about dental health! We are grateful to this Good Shepherd member and Building Blocks grandparent!

Speaking of grandparents...our Grandparent's Day event was a big hit! After some interactive music activities in the church sanctuary, our grandparents got their hands dirty during arts and crafts time in the gym. Everyone looks forward to this event each year.

Know someone looking for a preschool? Registration for the 2017-2018 school year took place in January. Only a few spots remain. Contact Kathy Rebholz at [krebholz@gslcelca.org](mailto:krebholz@gslcelca.org) for more information.

**Norma Anderson, PhD, RN, Parish Nurse**  
**Health Notes**

The spring allergy season begins this month, and if you want to avoid symptoms, you should act as soon as possible. Pre-treating allergies will lead to better control of symptoms and maybe prevent symptoms from showing up, according to an ENT physician at Harvard Medical School. When spring allergens – typically pollen from oak, elm, birch, poplar or maple trees– float through the air and reach the nose, the body sometimes overreacts. Cells in the lining of the nose mistake the harmless tree particles for dangerous invaders, and summon help by releasing chemicals such as histamine and tryptase, which then recruit more immune system cells to the battle. However, those chemicals also trigger watery eyes, a runny nose, sneezing, coughing, and a sore throat, a combination known as allergic rhinitis. Allergies go beyond simple discomfort. Your sleep is worse, you're more tired in the morning and your quality of life suffers.

Instead of allowing the body to conduct an unnecessary fight against pollen, you can turn off your defense system with medications. But, it's best to do so before those allergens arrive. This is partly because some drugs, such as corticosteroid nasal sprays take a few weeks to become fully effective. It's also because the reaction to even a few allergens has a snowball effect; once the reaction starts, it's hard to stop. More inflammatory cells are recruited to the

nose and sinuses, symptoms become more severe, and it's more difficult to treat them. Instead, it's better to block the reaction before it begins, which prevents symptoms or lessens their severity, and keeps irritation from progressing to sinusitis or an asthma flare-up.

Only certain allergy medications should be used in advance. Topping the list is a corticosteroid nasal spray, such as Nasonex or Flonase. Many of these types of sprays are now available over the counter. However, it takes a month for cells to feel the full impact and to turn off inflammatory chemicals. Doctors suggest the spray be used every day while allergy season lasts, starting about a month before you expect the allergy symptoms.

Another medication that can be taken in advance of anticipated symptoms is an antihistamine, which counteracts the effects of histamine. This is not as effective as the nasal steroid sprays, but it can be very good at preventing symptoms. However, antihistamines can be risky for older adults. Some antihistamines, such as Benadryl can cause drowsiness, leading to falls, so most older adults should avoid this medication. Better options include the antihistamines like Allegra or Claritin, available over the counter. These drugs are less likely to cause drowsiness. Safer than oral antihistamines are prescription antihistamine sprays, which may help prevent symptoms of sneezing and runny nose, while minimizing drowsiness. There are also antihistamine eyedrops that can be used to prevent watery eyes.

Decongestant pills, such as Sudafed, help reduce nasal congestion, but they can cause problems for people with high blood pressure or heart problems and should not be used to manage allergies. Decongestant sprays, such as Afrin, should not be used for more than a few days, since long-term use can make congestion worse. Another option is allergy shots to help reduce allergic symptoms, but that approach can take three to five years to be fully effective. Work with your personal physician or allergist to develop the best strategy for you. There are also drug-free ways to avoid allergies, such as keeping air conditioning and heating filters and vents clean, keeping windows closed, wearing a mask for outdoor yard work, and avoiding going outdoors when pollen levels are highest.

This information is taken from an article in the February issue of "Harvard Health Letter, published by the Harvard Medical School.
